

## MIDLAND INDUSTRIES ALL NEW **ANGLE GLOBE VALVES**

### Introducing Midland Industries **ANGLE GLOBE VALVES**

These heavy-duty Angle Globe Valves are made for applications in Waterworks and Irrigation systems. Available in either LF or leaded versions, these valves have an easy to remove stem assembly for easy cleaning and maintenance.

Wheel handle operated valves are used for applications in an underground box, or our cross handle versions are for use in a direct buried service.

These Angle Globe Valves are the latest great addition to the Midland Industries valve line up!

**Innovative, efficient and reliable.  
Designed for applications in  
Waterworks & Irrigation Systems!**
