

Midland Industries **FORGED BRASS BALL VALVE**

MANUFACTURED FOR QUALITY **FORGED BRASS BALL VALVE**

Midland Series "940" suitable for a full range of liquids and gases. Our ball valves have minimal pressure drop due to large full size ports.

Midland's forged brass ball valves have a yellow vinyl insulator on a heavy duty plated carbon steel handle. Our Ball valve operate on a fast 1/4 turn open or close operation with low operating torque.

Midland "940" series forged ball valve made of a forged brass for added strength. They have threaded ends to ANSI B1.20.1 and have deeper threads for a better connection.

Innovative, efficient and reliable.
Our Brass Ball Valve
come in a variety of options for
any application you need!

- Suitable for full range of liquids and gases
- Bottom loaded, pressure retaining stem
- Pressure rated for 1/4"-2" at 600 psi and 2-1/2"-4" at 400 psi WOG
- Fast 1/4 turn open or close operation
- Good for gasoline and diesel
- Maximum operating temperature: 302F (150 C)
- Minimum operating temperature: -22F (-30C)
