

MIDLAND INDUSTRIES ALL NEW HYDRANT ADAPTER BYPASS HOSE ASSEMBLIES

Blue Layflat

Single Jacket Mill
Fire Hose

Introducing Our Midland Industries HYDRANT ADAPTER BYPASS HOSE ASSEMBLIES

Our bypass assemblies offer a choice between our reliable Blue PVC lay flat hose or our durable Single Jacket Mill Fire Hose. These assemblies are designed for quick and easy connection to hydrants, ensuring uninterrupted water service during the repair of the city service mainline.

Additionally, these versatile hose solutions serve as ideal connecting hoses for refilling water tank trucks or for basic wash down tasks. Known for their superior quality, these contractor grade hoses are capable of handling multiple applications before requiring replacement.

It is important to note that these items are not suitable for use in any fire protection application.
