

All New Midland Industries DUCTILE IRON COMPANION FLANGES

The Most Accommodating DUCTILE IRON COMPANION FLANGES

Now in stock are Class 150 ductile iron companion flanges. These flat-faced flanges are available in both black and galvanized finishes and range in size from 1"-12" IPS. They are also available in several different reducing sizes. With a standard 150# bolt pattern these flanges can accommodate connection in the waterworks, irrigation and plumbing markets with ease.
