

All New Midland Industries **LEVER & WEIGHT CHECK VALVE**

PLACE AN ORDER TODAY!

Industry Standard **LEVER & WEIGHT CHECK VALVE**

The first valve in the Midland Industries offering to be manufactured to an AWWA standard. This AWWA C508, lever and weight, ductile iron body, flanged check valve is made to handle any application from pump and well to lift stations. This valve has industry standard lay lengths and can be used without the lever and weight depending upon the application. This 300 PSI working pressure, AWWA C550 epoxy coated valve is now stocked in sizes 3"-12".
