## QUICK DISCONNECTS

### MANUFACTURED FOR QUALITY

## QUICK DISCONNECT FITTINGS

Here at Midland Industries, we have all of the Quick Disconnect Fittings and options you need, including brass, stainless steel, and hydraulic options!

The straight through design means there is no positive shut-off after disconnect. Ideal for applications such as high pressure water, steam washers, and carpet cleaners. Safe for use with liquids, hydraulic service, compressed air, gases, water and vacuum.

Our Brass couplers have brass bodies and valves, 8 steel locking balls, Buna-N seal, and stainless steel springs.

The Stainless Steel Couplers have stainless steel bodies, 8 stainless steel locking balls, Buna-N seal, and stainless steel springs.

Plugs are steel with green blue zinc plating or stainless steel.

**Innovative, efficient and reliable.**  
**Our Quick Disconnect Fittings**  
**come in a variety of options for**  
**any application you need!**

- **Max Temperature:**
