MANUFACTURED FOR QUALITY

WORM GEAR CLAMPS

Miniature Clamps - 5/16" Band, 1/4" Screw

For primary applications in marine, agricultural, industrial, and automotive uses. Corrosion resistance varies with stainless components. These bands are mechanically interlocked with 3-piece construction for service sealing pressure without spot welding.

Wide Band Clamps - 1/2" Band, 5/16" Screw

A general purpose clamp for automobiles, plumbing, and home & garden general clamping applications. Constructed with anti-corrosive properties varying with the number of components made from stainless steel.

Innovative, efficient and reliable.
Our Worm Gear Clamps come in a variety of options and sizes to meet all of your clamp needs!

Miniature Clamps Series:

- 300 Series - Stainless Steel band w/ Carbon housing and screw
- 325 Series - Stainless Steel band & housing, w/ Carbon steel screw.
- 350 Series - All Stainless Steel.
